

Average

To calculate the average, add up all the numbers, then divide by how many numbers there are.

Average is also known as 'mean'.

What is the average age of the three dinosaurs?

1 Add up the dinosaurs' ages.

$$5 + 7 + 12 = 24$$

2 Divide the total by the number of values.

$$24 \div 3 = 8$$

Average = 8

Mean

To calculate the mean, add up all the numbers, then divide by how many numbers there are.

Mean is also known as 'average'.

What is the mean age of the three dinosaurs?

1 Add up the dinosaurs' ages.

$$5 + 7 + 12 = 24$$

2 Divide the total by the number of values.

$$24 \div 3 = 8$$

$$\text{Mean} = 8$$
